

Mission & Beliefs

Partners in Learning

Our Mission

Walla Walla Public Schools, in partnership with the community, is committed to excellence in personalized learning which challenges and supports all students in becoming educated, productive citizens, and life-long learners.

We Believe...

- Students are the focus of all our efforts.
- Learning is a lifelong process and, all students, recognizing differences, must be given equitable opportunities to reach their potential and to develop a love of learning.
- Family and community partnerships create an environment for successful student learning.
- Effective communication is essential to the partnership for learning.
- Staff best help students to succeed by inspiring, challenging and guiding students to reach their full potential.
- Student mastery of core educational content and skills is essential for success in a rapidly changing world. These skills include the ability to solve problems, think analytically and creatively, attain fluency in all modes of communication, work effectively with others, and apply what has been learned to new situations.
- Each student learns best when there is trust, caring, and mutual respect, and where the learning environment is safe, disciplined, engaging, creative, challenging, and supportive.
- The major role of all members of the educational community is to prepare students to become responsible, ethical, and productive members of society.
- Professional development is critical to maintaining quality of all staff.
