

August 24 • School Board Meeting Recap

## Board approves 2004-2005 budget

### *Spending adjustments help district offset funding cuts*

School board members last night unanimously approved a \$46,688,055 general fund budget for the 2004-05 school year.

The 2004-05 budget maintains a four percent cash reserve cushion, well within the school board's mandated three to five percent range.

Cash reserves are projected to take a \$1.2 million hit this fiscal year, but the district was able to preserve established class sizes, maintain existing staffing levels and offer the same level of core curricular subjects and electives.

The budget allows for a \$200,000 funding allowance for a Social Studies Curriculum adoption and other curriculum needs.

"We're excited about offering these resources to enhance our offerings and ultimately improve student academic achievement," Superintendent **Rich Carter** said.

The general fund budget is

based on a student enrollment count of 5,611. Business Manager **Aron Rausch** said some expenditure adjustments were made this budget cycle to help align revenues with expenditures.

"This is a proactive approach to help us maintain our goal of having fiscal stability," Rausch said. "We are forming a broad-based budget review committee this year consisting of staff, parents, and community members to further study the district's budget and help prioritize funding needs."

The Washington State Legislature cut funding for Walla Walla Public Schools nearly \$500,000 last biennium, a recent trend for state schools.

## Carter praises staff for getting schools ready for area students

Superintendent **Rich Carter** told school board members how proud he was of the district staff for getting schools ready to serve students on opening day.

"When students come through the doors on opening day they will be greeted from the heart," Carter said. "It took a tremendous team effort to accomplish all the projects and tasks necessary over the summer break to be ready for this day. I would put our staff up against any in the state for efficiency, professionalism and dedication."

## Golden named to state special education committee

State Superintendent of Public Instruction **Dr. Terry Bergeson** appointed school board member **Anne Golden** to serve on the state's Special Education Advisory committee.

Golden, who served as president of the Washington State School Directors' Association (WSSDA) in 2003, will provide leadership to the committee charged with ensuring Special Education programs are meeting today's needs. Golden has been a member of the Walla Walla Public Schools board for 16 years.

## Garrison Night School to be featured

Garrison Night School was recently selected to be included as a featured presentation at this fall's state school board conference. This presentation was shown last spring at the National School Board annual conference in Florida.
