WALLA WALLA PUBLIC SCHOOLS
RFP - Architectural Services for 2018 Bond Projects
Addenda #02
Issued August 28, 2018

Please note the following clarification:

1. Delete Item F.8 in Its Entirety

- a. A concern has been raised in regards to the requirement that proposers include an hourly rate schedule. This schedule was requested for information purposes only in an effort to provide a mechanism by which services could be rendered immediately following selection and prior to final negotiations. Although the District does not feel that this item is contrary to the intent of RCW 39.80 the requirement is being removed from the RFP in an effort to provide more clarity and assurance to prospective firms. The requested rate schedule was never included as part of the scoring for evaluation. If prior to receiving this addenda, your firm's proposal has been submitted or shipped containing the rate schedule, it will be disregarded and will not be considered in the scoring for evaluation. Likewise, failure to acknowledge this addenda will not count against said firm.
