

# Lemons

- ◆ Lemons are a member of the citrus family and related to oranges, mandarins and grapefruit.
- ◆ Lemon trees are dense and have a rounded shape, with glossy, smooth, dark green leaves.
- ◆ Lemon trees bloom and produce fruit year-round. Each tree can produce between 500 and 600 pounds of lemons in a year.
- ◆ One lemon can provide 50% of a day's requirement of vitamin C
- ◆ Lemons are a first rate insect bite repellent.
- ◆ Christopher Columbus introduced citrus trees to the island of Haiti in 1493 by planting the seed of a lemon.
