**WWPS Fifth Grade Promise Standards**

**Fifth Grade Families:** In Walla Walla Public Schools, we operate in an aligned and coherent system. This means students will receive access to the same promise standards no matter which school they attend. The fifth grade team at your child’s school will support all students to reach proficiency on the promise standards listed below, while also addressing all of the fifth grade math and language arts standards. Teachers identified these promise standards in alignment with previous and following grade levels to ensure skills build from year to year, and lead to a successful educational career in Walla Walla Public Schools.

### Fifth Grade Math Promise Standards

- Add and subtract fractions with unlike denominators (including mixed numbers) by replacing given fractions with equivalent fractions.
- Find the area of rectangle with fractional side lengths by tiling it with unit squares of the appropriate unit fraction side lengths, and show that the area is the same as would be found by multiplying the side lengths. Multiply fractional side lengths to find areas of rectangles, and represent fraction products as rectangular areas.
- Interpret division of a unit fraction by a non-zero whole number and compute such quotients.
- Use parentheses, brackets, or braces in numerical expressions, and evaluate expressions with these symbols.
- Read, write, and compare decimals to thousandths.
- Fluently multiply multi-digit whole numbers using the standard algorithm.
- Find whole-number quotients of whole numbers with up to four-digit dividends and two-digit divisors, using strategies based on place value, the properties of operations, and/or the relationship between multiplication and division.
- Add, subtract, multiply, and divide decimals to hundredths, using concrete models or drawings and strategies based on place value, properties of operations, and/or the relationship between addition and subtraction; relate the strategy to a written method and explain the reasoning used.
- Find the volume of a right rectangular prism with whole number side lengths by packing it with unit cubes, and show that the volume is the same as would be found by multiplying the edge lengths, equivalently by multiplying the height by the area of the base.
- Apply the formulas $V = l \times w \times h$ and $V = b \times h$ for rectangular prisms to find volumes of right rectangular prisms with whole number edge lengths in the context of solving real world and mathematical problems.
- Represent real world and mathematical problems by graphing points in the first quadrant of the coordinate plane, and interpret coordinate values of points in the context of the situation.

### Reading: Literature

- Determine the meaning of words and phrases as they are used in a text, including figurative language such as metaphors and similes.
- Determine a theme of a story, drama, or poem from details in the text, including how characters in a story or drama respond to challenges or how the speaker in a poem reflects upon a topic; summarize the text.
- Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text. (Literary)
- Determine two or more main ideas of a text and explain how they are supported by key details; summarize the text.
- Explain the relationships or interactions between two or more individuals, events, ideas, or concepts in a historical, scientific, or technical text based on specific information in the text.
- Integrate information from several texts on the same topic in order to write or speak about the subject knowledgeably.
- Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text. (Informational)

### Writing

- Write opinion pieces on topics or texts, supporting a point of view with reasons and information.
  - Introduce a topic or text clearly, state an opinion, and create an organizational structure in which ideas are logically grouped to support the writer’s purpose.
  - Provide logically ordered reasons that are supported by facts and details.
  - Link opinion and reasons using words, phrases, and clauses (e.g., consequently, specifically).
  - Provide a concluding statement or section related to the opinion presented.
WWPS Fifth Grade Promise Standards

• With some guidance and support from adults, use technology, including the Internet, to produce and publish writing as well as to interact and collaborate with others; demonstrate sufficient command of keyboarding skills to type a minimum of two pages in a single sitting.

• Draw evidence from literary or informational texts to support analysis, reflection, and research. *This includes literary texts, is focused on writing, includes research, and can be based on only one text.

• Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
  - Use verb tense to convey various times, sequences, states, and conditions.
  - Recognize and correct inappropriate shifts in verb tense.
