Board reviews budget

2016-2107 Budget balances revenues and expenditures with 8 percent reserve

Executive Director of Business Services Ted Cohan briefed the school board on the 2016-2017 General Fund Budget yesterday afternoon during a public work session. The proposed budget reflects a balance of revenue and expenditures while maintaining an 8% fund balance. Cohan reported the district received approximately \$1.9 million dollars in new state revenue over the previous year's allocation, but noted rising operational costs in personnel, utilities and other services exhaust most of these funds. The Teaching and Learning Department will receive an

additional \$350,000 this year to address curriculum adoption and professional development needs. This year's budget is based on a student enrollment target of 5760 FTE, up from the 5710 mark last year. Cohan said preliminary kindergarten registration numbers are strong, prompting the district to hire an additional kindergarten teacher.

The budget is presently under review by ESD 123 as required by state law and will be presented to the school board August 16 for approval consideration.

Health Center expands services to Pioneer MS

The Health Center is expanding services to Pioneer Middle School this school year to address healthcare needs in support of reducing barriers to a quality education. Presently The Health Center operates clinics for Lincoln High School and Blue Ridge Elementary students.

Director Stan Ledington reported to school board members the expansion to Pioneer Middle School will serve students at a critical stage in their development. Services will include primary medical care, behavioral health, health education and care coordination. This expansion will double the number of students The Health Center serves. The Health Center is a locally operated nonprofit and does not receive direct funding from the school district.

The Health Center Director Stan Ledington says the expansion to Pioneer Middle School helps meet a critical community need.

Approved Resolution #07-2016 Transfer of Funds.

Preschool busing returns

School board members approved \$138,500 transfer of funds from the General Fund to the Transportation Vehicle Fund to purchase a new school bus outfitted with special seats and seat belts for preschool-aged children. Busing services will resume this school year following a three year hiatus put in place due to the federal sequestration which caused the program to cut \$65,000. Former Preschool Director Kerri Coffman said after careful consideration and with input from parents and staff, it was determined three years ago to cut busing rather than staff or services to children. The federal sequestration dollars have since returned to the program. Parents have been requesting bus service. This year the district will operate two school buses to serve in the morning, mid-day and afternoon routes in support of approximately 74 students' transportation needs, thus limiting access barriers.

Borleske Stadium

Football programs adjust to pool construction

As construction continues on the new city pool at the Borleske Stadium site, Walla Walla High School officials are facing more than \$11,000 in costs to keep Wa-Hi varsity football games at the stadium this season due to lack of locker rooms and restrooms. In prior years, Blue Devil and visiting football players used the existing swimming pool changing rooms during football games and these spaces are presently under construction.

The game solution for this year is pitching large rental tents on both sides of the visitors' grandstands for the teams to meet before games and during halftime. Additional portable restrooms will also be brought in for players and coaches to use. Prior to the games, visiting teams will travel to Walla Walla High School to change into their uniforms, receive trainer support and take care of other pre-game needs before being bused back to Borleske Stadium for games.

Walla Walla High School Freshmen and Junior Varsity teams will relocate to Wa-Hi from Martin Field at the Borleske Stadium as a result of construction impacts and coach requests. The track and field program will move to Wa-Hi this spring following construction of the new track, leaving varsity football as the only remaining Wa-Hi program still housed at Borleske Stadium.
