### **Calendar Committee narrows calendar options**

Superintendent Mick Miller conducted his third calendar committee meeting Wednesday evening as the district continues efforts to adopt calendars for the 2012-2013 and 2013-2014 school years. The broad-based calendar committee, chaired by Miller, has narrowed the options down to two calendars for each school year. The primary differences in the calendars are the start and finish dates. One option starts school before the Labor Day Holiday and the other starts school after Labor Day.

Superintendent Miller is preparing instructions for the committee to get further input from their representatives. Walla Walla Valley Education Association President Margo Piver will get input on the two options from the district's teacher's association membership.

Public School Employees President Bill Heiser will get input from support staff. The Administrative Council will weigh in on the options as well and a survey will be posted on the district's web site to get input from parents, students and community members who do not have school-aged children.

Superintendent Mick Miller, working in collaboration with the district's bargaining groups, will study all of the input before making a final recommendation to the school board. Miller says he would like to take a proposal to the school board in January.

Inspired by a true story, *Radium Girls* traces the efforts of Grace Fryer, a dial painter, as she fights for her day in court.

Her chief adversary is her former employer, Arthur Roeder, an idealistic man who cannot bring himself to believe that the same element that shrinks tumors could have anything to do with the terrifying rash of illnesses among his employees. ### **Albertsons donates \$1000 to Blue Ridge and Preschool program**

Wednesday afternoon Blue Ridge Elementary Principal Kim Doepker and Head Start/ECEAP Preschool Director Kerri Coffman helped Albertsons re-open its Eastgate store following a complete renovation by participating in the ribbon cutting ceremony. Doepker and Coffman were in attendance to receive a \$1000 donation from Albertsons. The donation comes in the form of gift cards to be used to purchase groceries, school supplies and other items to support students and families.

Blue Ridge and the preschool program each received five, \$100 gift cards. Doepker and Coffman will develop an education program focused on proper nutrition and healthy living in conjunction with store purchases. They plan to organize classroom activities and a family night to reinforce the educational component.

“Albertsons wants to be involved in the community and help our local children,” said Larry Perez, Albertsons Eastgate Store Director. “Albertsons is also committed to supporting healthy living and nutrition education.”

Coffman says the timing of the donation is ideal since her students and staff are focused on educating the whole child and their family.

“We are so appreciative of Albertsons designating Blue Ridge Elementary and the Preschool programs as the recipient of this \$1,000 gift card award,” said Coffman. “Kim and I both have the philosophy that healthy eating leads to better learning. With Head Start’s primary focus being on health and nutrition, this fits perfectly with our goal of healthy families!”

### **Pioneer Middle School principal named keynote speaker for International Education Week forum**

Pioneer Middle School Principal Mira Gobel has been named the keynote speaker for the International Education Week Forum 2011 – *Courage Beyond the Borders* event Thursday, November 17 from 6 to 8:30 p.m. at Whitworth University in Spokane, WA. Gobel will share her story as a Korean, biracial individual who faced discrimination in Korea and eventually journeyed to the United States.

The forum is designed to promote a greater understanding of international issues related to teacher education and the appreciation of other cultures. International Education Week is an international celebration of different cultures in our world and promotes education about these different cultures.

“I am truly honored to be invited to such an amazing event to share my personal story,” Gobel said. “I want to share that hope is the fuel that keeps the fire of courage burning. This same hope is what I try to cultivate in students every day.”

Gobel is currently in her first year as Principal of Pioneer Middle School in Walla Walla, Washington. Mira has been an educator for the past 23 years – 15 years as a classroom art teacher and eight as an administrator. She began her career as an art teacher at Pioneer Middle School in the late 1980s. In 1999, she transferred to Walla Walla High School where she taught in the Art Department for four years.

Prior to taking her current position, she was Associate Principal at Walla Walla High School specializing in curriculum and assessment, state graduation requirements, professional development and course development and scheduling. Gobel also has extensive training in the Advancement Via Individual Determination (AVID) program which now spans grades 7 to 12 in Walla Walla Public Schools. The AVID program provides additional support to students to help them develop a path to college entrance. As a second language learner herself, Gobel understands the importance of supporting students to help them meet their true potential.

Mira Gobel has been a key district leader in advancing the Response to Intervention (RTI) model across the school district. The RTI model focuses on identifying each student’s academic needs and developing an individualized learning plan to address these specific areas. Last school year Mira was invited by the State of Delaware Department of Education to discuss Walla Walla High School’s RTI success stories with Delaware educators. Her leadership helped Walla Walla High School achieve a 96.4 percent on-time graduation rate and become one of only two high schools in the state to receive the 2010 Washington Achievement Award for the *Closing the Achievement Gap* category.

The CASHE Conference, hosted by Movimiento Estudiantil Chicana/o de Aztlán (M.E.Ch.A) promotes higher education for Latina/o high school students throughout Washington State through multicultural leadership and awareness workshops, while developing a network for students seeking higher education.
