COMPREHENSIVE EARLY LITERACY PLAN

The district recognizes that early literacy is fundamental to students' development of listening, speaking, reading, writing and critical thinking skills. The district will develop and implement reading and early literacy services to kindergarten through fourth grade students based on student need for additional support so that every student has the opportunity to build a strong foundation for academic success.

General requirements

The plan will include:

1. Use of annual screening assessments and other tools (e.g., Washington kindergarten inventory of developing skills, Washington state early learning and development guidelines for birth through third grade, the second grade reading assessment under RCW 28A.300.310, local assessments) to identify at-risk readers; and
2. Research-based family involvement and engagement strategies, including those that help families and guardians learn to assist student reading and early literacy skills at home.

In order to keep parents informed and engaged in their student's reading progress, the district will require that report cards for students in kindergarten through fourth grade report the student's progress toward reading skill acquisition and whether the student is reading at grade level.

If the student is not reading at grade level, the teacher and other appropriate school personnel will: 1) Advise the parent or guardian as to which interventions and/or strategies the district will use to help improve the student's reading skills; and 2) Provide strategies for parents or guardians to use at home to assist their student in improving their reading skills.

Requirement specific to third grade students

Prior to the return of the results of the statewide student assessment in English language arts, teachers and parents of students in third grade who are reading below grade-level or who, based on formative or diagnostic assessment and other indicators are likely to score in the below basic level (level one in a four-level scoring system on the statewide student assessment) on the third grade statewide student assessment in English language arts and will schedule a meeting to discuss the student's progress. Teachers may use a regularly scheduled parent-teacher conference to satisfy this meeting requirement.

At the meeting, the teacher will inform the parents/guardians of:

- The requirements of this policy;
- The intensive reading improvement strategies that will be available to their student before fourth grade; and
- The school district's grade placement policy for the following year.

BOARD POLICY

Policy No. 2107

Page 2 of 3

If a third grade student scores below grade level on the third grade statewide student assessment in English language arts and no scheduled meeting took place prior to the return of the results as indicated above, the principal or designee will notify the student's parents/guardians of:

- The fact that their student scored below standard;
- The requirements of this policy with regard to such a score;
- The intensive improvement strategy options available;
- The school district's grade placement policy;
- Contact information for a school district employee who can respond to questions and provide additional information; and
- A reasonable deadline for obtaining the parent's consent regarding the student's improvement strategies that will be implemented and the student's grade placement.

The district must inform the parent/guardian regarding appropriate grade placement and the intensive improvement strategy to be implemented. For students to be placed in fourth grade, the strategies discussed must include one provided, supported or contracted by the school district that includes a summer program or other options developed to meet the needs of students to prepare for fourth grade. The strategy must be implemented in consultation with the parents/guardians.

If the district does not receive a response from a parent/guardian by the deadline or within a reasonable time thereafter, the principal or designee will make a decision on the student's grade placement for the following year and the intensive improvement strategies that will be implemented during the following school year. If the principal and parent cannot agree on the appropriate grade placement and improvement strategies from the list of available options, the district will honor the parent's request.

If a student does not have a score in English language arts on the third grade statewide assessment but the district determines or is able to anticipate (using district or classroom-based formative or diagnostic assessments or another standardized assessment), that that student is below basic, the district will follow the same process for third grade students listed in this policy.

Students in the transitional bilingual instruction program are exempt from this process, unless the student has participated in the program for three school years and receives a score of below basic on the third grade statewide student assessment in English language arts. Students with disabilities whose individualized education program (IEP) includes specially designed instruction in reading or English language arts are exempt from this process.

Intensive reading and literacy improvement strategies

The district will choose and implement intensive reading and literacy improvement strategies from a state menu of best practices established by the Office of the Superintendent of Public Instruction (OSPI).

Walla Walla Public Schools

BOARD POLICY

Policy No. 2107

Page 3 of 3

The district may use a practice or strategy not present on the state menu of best practices for two years initially. If the district is able to demonstrate that it has achieved improved outcomes for students over the previous two school years at a level commensurate with best practices on the state menu, OSPI must approve use of the strategy for one additional school year. Subsequent approval is dependent on continuing improvement.

Students with disabilities whose individualized education program (IEP) includes specially designed instruction in reading or English language arts will be provided reading and literacy improvement strategies as provided in the IEP.

In any school where more than forty percent of tested students received a score of basic (level two on a four-level scoring system) or below basic on the third grade statewide student assessment in English language arts in the previous school year, the school district will implement an intensive reading and literacy improvement strategy from the state menu or an alternative strategy as referenced above for all students in grades kindergarten through four at the school.

Reporting requirement

The district will require each school to report the number of students in kindergarten through fourth grade who are reading below grade level and the interventions being provided to those students to improve their reading. The information will be disaggregated by subgroups of students. The district will aggregate the information and provide reports to the office of the superintendent of public instruction for delivery to the education committees of the legislature and the educational opportunity gap oversight and accountability committee.

EDUCATION OF STUDENTS WITH DISABILITIES UNDER SECTION 504 OF THE REHABILITATION ACT OF 1973

It is the intent of the district to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 (Section 504) are identified, evaluated, and provided with appropriate educational services. Students may be a qualified disabled person under this law even though they are not eligible for services pursuant to the Individuals with Disabilities Education (IDEA).

Section 504 is a civil rights law that protects the rights of individuals with disabilities in programs and activities that receive federal financial assistance from the U.S. Department of Education. A child is a "qualified disabled person" under Section 504 if he or she:

- (1) Has a physical or mental impairment that substantially limits one or more major life activities (such as caring for oneself, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working), has a record of such an impairment, or is regarded as having such an impairment; and
- (2) is between the ages of 3 to 21 years old.

The superintendent or designee will establish procedures to ensure that students who are disabled within the definition of Section 504 are educated in full compliance with the law.

BOARD POLICY

Policy No. 2418

Page 1 of 1

WAIVER OF HIGH SCHOOL GRADUATION CREDITS

The board seeks to provide all students with the opportunity to complete graduation requirements without discrimination and without disparate impact on groups of students. In so doing, the board acknowledges that unusual circumstances may result in a student's inability to earn all twenty-four credits required for high school graduation. Unusual circumstances may include, but are not limited to:

- Homelessness;
- A health condition resulting in an inability to attend class;
- Limited English proficiency;
- Disability, regardless of whether the student has an individualized education program or a plan under Section 504 of the federal Rehabilitation Act of 1973;
- Denial of an opportunity to retake classes or enroll in remedial classes free of charge during the first four years of high school;
- Transfer during the last two years of high school from a school with different graduation requirements.
- Other circumstances (e.g., emergency, natural disaster, trauma, personal or family crisis) that directly compromised a student's ability to learn.

The board delegates to the superintendent or his/her designee discretion to grant a waiver of a maximum of two elective credits required for graduation. A student's parent/guardian or an adult student must file the district's Application for Waiver of High School Graduation Credits (Form 2418F) with the superintendent's office no later than thirty days prior to the student's scheduled graduation date. In order to graduate, students granted a waiver must earn seventeen required subject credits (three English, three Math, three Science, three Social Studies, two Health and Fitness, two Arts, one Career and Technical Education) which may be by satisfactory demonstration of competence as provided by WAC 180-51-050.

RESOLUTION # -20
Resolution Date

WAIVER OF HIGH SCHOOL GRADUATION CREDITS

WHEREAS, in accordance with the state law, the Board of Directors/Walla Walla Public Schools ("Board") shall amend policies to allow the Superintendent or designee to grant waivers of a maximum of two elective credits required for high school graduation based on unusual circumstances as defined in district Policy and Procedure and Form 2418.

WHEREAS, the new policy attached to this Resolution as Exhibit A provides for the process by which waivers may be granted; and

WHEREAS, the Board wishes to ensure that its policy on the granting of waivers of high school graduation credits based on unusual circumstances is in compliance with Washington law;

NOW, THEREFORE BE IT RESOLVED, that the Board of Directors/Walla Walla Public Schools hereby establishes the attached policy is necessary to take into consideration the unique limitations of a student that may be associated with circumstances such as homelessness, limited English proficiency, medical conditions that impair a student's opportunity to learn, or disabilities and to provide all students with the opportunity to complete graduation requirements without discrimination and without disparate impact on groups of students; and

BE IT FURTHER RESOLVED that execution of this Resolution is conclusive evidence of the Board's approval of this action and of the authority granted herein. The Board warrants that it has, and at the time of this action had, full power and lawful authority to adopt this instrument.

BOARD POLICY

Policy No. 3115

Page 1 of 3

HOMELESS STUDENTS: ENROLLMENT RIGHTS AND SERVICES

To the extent practical and as required by law, the district will work with homeless students and their families to provide them with equal access to the same free, appropriate education (including public preschool education) provided to other students. Special attention will be given to ensuring the identification, enrollment and attendance of homeless students not currently attending school, as well as mitigating educational barriers to their academic success. Additionally, the district will take reasonable steps to ensure that homeless students are not stigmatized or segregated in a separate school or in a separate program within a school on the basis of their homeless status.

Homeless students will be provided district services for which they are eligible, including Head Start and comparable pre-school programs, Title I, similar state programs, special education, bilingual education, vocational and technical education programs, gifted and talented programs and school nutrition programs.

Homeless students are defined as lacking a fixed, regular and adequate nighttime residence, including those students who are:

- A. Sharing the housing of other persons due to loss of housing or economic hardship;
- B. Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations;
- C. Living in emergency or transitional shelters;
- D. Abandoned in hospitals;
- E. Living in public or private places not designed for or ordinarily used as regular sleeping accommodations;
- F. Living in cars, parks, public spaces, abandoned buildings, substandard housing, transportation stations or similar settings;
- G. Migratory children living in conditions described in the previous examples.

The superintendent shall designate an appropriate staff person to be the district's McKinney-Vento liaison for homeless students and their families. The liaison may simultaneously serve as a coordinator for other federal programs, provided that they are able to carry out the duties listed in the procedure that accompanies this policy.

If the district has identified more than ten unaccompanied youth, meaning youth not in the physical custody of a parent or guardian and including youth living on their own in any of the homeless situations described in the McKinney-Vento Homeless Education Act, the principal of each middle and high school building will establish a point of contact for such youth. The point of contact is responsible for identifying homeless and unaccompanied youth and connecting them with the district's homeless student liaison. The district's homeless student liaison is responsible for training the building points of contact.

Walla Walla Public Schools

BOARD POLICY

Policy No. 3115

Page 2 of 3

Best interest determination

In making a determination as to which school is in the homeless student's best interest to attend, the district will presume that it is normally in the student's best interest to remain enrolled in their school of origin unless such enrollment is against the wishes of a parent, guardian or unaccompanied youth. Attendance options will be made available to homeless families on the same terms as families resident in the district, including attendance rights acquired by living in attendance areas, other student assignment policies, and intra and inter-district choice options.

If there is an enrollment dispute, the student shall be immediately enrolled in the school in which enrollment is sought, pending resolution of the dispute. The parent or guardian will be informed of the district's decision and the reason therefor, (or informed if the student does not qualify for McKinney-Vento, if applicable) and their appeal rights in writing and in a language they can understand. The District Homeless Liaison will carry out dispute resolution as provided by state policy. Unaccompanied youth will also be enrolled pending resolution of the dispute.

Once the enrollment decision is made, the school will immediately enroll the student pursuant to district policies. However, enrollment may not be denied or delayed due to the lack of any document normally required for enrollment, including academic records, medical records, proof of residency, mailing address or other documentation or denied or delayed due to missed application deadlines or fees, fines or absences at a previous school

If the student does not have immediate access to immunization records, the student will be admitted under personal exception. Students and families should be encouraged to obtain current immunization records or immunizations as soon as possible, and the district liaison is directed to assist. Records from the student's previous school will be requested from the previous school pursuant to district policies. Emergency contact information is required at the time of enrollment consistent with district policies, including compliance with the state's Address Confidentiality Program when necessary. However, emergency contact information cannot be demanded in a form or manner that creates a barrier to enrollment and/or attendance at school.

Homeless students are entitled to transportation to their school or origin or the school where they are to be enrolled. If the school of origin is in a different district, or a homeless student is living in another district but will attend his or her school of origin in this district, the districts will coordinate the transportation services necessary for the student, or will divide the costs equally.

The district's liaison for homeless students and their families shall coordinate with local social service agencies that provide services to homeless children and youths and their families; other school districts on issue of transportation and records transfers; and state and local housing agencies responsible for comprehensive housing affordability strategies. This coordination includes providing public notice of the educational rights of homeless students where such children receive services under the McKinney-Vento Act, such as in schools, family shelters and other locations where homeless families/youth are likely to see them. The notice must be disseminated in a manner and form that parents, guardians and

Walla Walla Public Schools

BOARD POLICY

Policy No. 3115

Page 3 of 3

unaccompanied youth receiving such services can understand, including, if necessary and to the extent feasible, in their native language. The district's liaison will participate in professional development and other technical assistance activities, as determined by the state-level (OSPI) coordinator for homeless children and youth programs. The district liaison will also review and recommend amendments to district policies that may act as barriers to the enrollment of homeless students

The superintendent will:

- Strongly encourage district staff, including substitute and regular bus drivers to annually review the video posted on the OSPI website on identification of student homelessness;
- Strongly encourage every district-designated homeless student liaison to attend trainings provided by the state on identification and serving homeless youth. Ensure that the district includes in materials provided to all students at the beginning of the school year or at enrollment, information about services and support for homeless students (i.e., the brochure posted on the OSPI website).
- Use a variety of communications each year to notify students and families about services and support available to them if they experience homelessness (e.g., distributing and collecting an annual housing intake survey, providing parent brochures directly to students and families, announcing the information at school-wide assemblies, posting information on the district's website).
