### ACCOUNTABILITY GOALS

#### A. High School Graduation Rate Goals

The board will annually adopt district-wide graduation goals and direct each high school to annually establish goals, subject to board approval, to increase the percentage of on-time graduates receiving a high school diploma.

#### B. District and School Reading and Mathematics Improvement Goals

The board will adopt district-wide performance improvement goals for reading and mathematics and direct each school in the district that administers the statewide assessment to adopt performance improvement goals to increase the percentage of students meeting the standard in reading and mathematics.

Once a year the board will issue a report to parents and present it in a public meeting. The report will include the following:

1. The district's improvement goals;
2. Student performance relative to the goals; and
3. District and building plans to achieve the goals, including curriculum and instruction, parent and guardian involvement, and resources available to parents and guardians to assist students in meeting the state standards.

Annually, the district will report the district's progress toward meeting the district and building goals in a news release to local media. The report will also be included in each school's annual school report.
